Taking Care of Sick People with COVID-19 Illness at Home

Having a Sick Person in the home

Many people who get sick with coronavirus (COVID-19) can be safely cared for at home. If possible, have the sick person stay in one room, or physically away from other people in the household. Keep them at least 1 metre (an arm's length) away from others.

Wearing a mask

Have the sick person wear a mask, or cloth face covering, when they are around other people, including family members. Caregivers should wear a mask, or cloth face covering, and disposable gloves when touching any items used by the sick person.

Disinfect surfaces

Clean frequently touched surfaces, or items in the house with soap and water every day. Then, use a diluted chlorine solution to disinfect.

COVID-19 – Messages of Hope

LIFE

- We can have real hope in the face of COVID-19! Most cases of COVID-19 are mild; most people who contract COVID-19 recover; and every person can contribute to preventing new cases by taking simple steps like physical distancing, hand hygiene, covering the mouth and nose when coughing or sneezing, and wearing a face mask.
- Life is a gift of God that we have the privilege to share, protect and celebrate with and for our brothers and sisters.

AIDS Orphans are Seen -- Are COVID Orphans Seen?

The screenshot shows a web browser displaying a New York Times article. The URL is <https://www.nytimes.com/2020/08/13/myregion/coronavirus-ny-parents-dead.html>. The article title is "He Is 16 and His Mother Died of Covid-19. What Happens To Him Now?". Below the title is a sub-headline: "Children who lost their parents in the pandemic are fighting to hold on to what is left of their families." The main image shows a young boy sitting on a large rock in a grassy area with trees in the background. The Windows taskbar at the bottom shows the time as 8:38 PM on 8/16/2020.

The screenshot shows a web browser displaying a Human Rights Watch article. The URL is <https://www.hrw.org/news/2020/04/09/covid-19-and-childrens-rights>. The article title is "COVID-19 and Children's Rights". The page includes a "DONATE NOW" button and a "Join Us" button. The article text discusses the impact of COVID-19 on children's rights, mentioning that children who contract COVID-19 appear to have less severe symptoms and lower mortality rates than other age groups. The Windows taskbar at the bottom shows the time as 8:43 PM on 8/16/2020.

Nearly 1 million have died from COVID-19; projections, citing Imperial College of London estimates that excess mortality may reach 20 million by end of 2020
